Pfizer Inc. (NYSE:PFE) announced today that the members of Rascal Flatts, the most-awarded country music band of the past decade, are among the thousands of people who choose Nexium® 24HR every day since becoming available without a prescription for frequent heartburn this past May.

Pfizer wants all frequent heartburn sufferers to experience Nexium Level Protection™ where they are provided access to the #1 doctor-prescribed acid-blocker brand and are protected all day and all night from frequent heartburn – satisfaction guaranteed. Starting today, consumers can learn more about the guarantee and high value offer at Nexium24HR.com.

“All three of us have frequent heartburn and we really hate to admit it, but it’s held us back, especially when we’re celebrating with family, friends and, of course, our fans,” explained Gary LeVox, lead singer of Rascal Flatts. “After joining the thousands of people who choose Nexium 24HR every day, we feel protected all day and all night from frequent heartburn. We invite everyone looking for complete protection from frequent heartburn to join us.”

“Similar to many others with frequent heartburn, Gary, Jay and Joe Don of Rascal Flatts each know very personally the limitations that frequent heartburn can have on your life,”

said Brian Groves, U.S. Chief Marketing Officer at Pfizer Consumer Healthcare. “But now they’ve got Nexium Level Protection. This new option for treating frequent heartburn with a brand that consumers and health care providers know and trust gives us the confidence to invite all frequent heartburn sufferers to choose Nexium 24HR now with a satisfaction guarantee.”
