The refreshing flavor of mint is a pleasurable enhancement to toothpastes, chewing gums, culinary fare – and now, America's most-preferred multivitamin brand.

Pfizer Consumer Healthcare has announced the launch of Centrum® VitaMints®, a great-tasting and easy-to-take multivitamin that offers consumers the essential nutrients they can enjoy like a mint, from Centrum®, a brand they know and trust.

“Americans want to live well – they want to eat right and exercise often – however they are often short on the time needed to support an active, healthy lifestyle,” said Bahar Takhtehchian, lifestyle and wellness expert. “By offering a multivitamin in a flavor many

consumers love, Centrum® VitaMints® give consumers an on-the-go option they enjoy like a mint that helps support energy, immunity and metabolism.”

Centrum® VitaMints® is a refreshing and complete multivitamin that provides a more enjoyable experience for consumers to get essential nutrients, and joins other Centrum products to form one of the most comprehensive lines of multivitamins on the market.

“Pfizer Consumer Healthcare is committed to bringing a range of exciting new Centrum multivitamin formulas to market that seamlessly fit into Americans’ everyday lives, including Centrum® VitaMints®, a surprisingly and refreshing mint tasting multivitamin that breaks through in a category traditionally known for tablets and gummies,” said Robert Uccardi, Director for Centrum, Pfizer Consumer Healthcare.

Centrum® VitaMints® in Cool Mint flavor is intended for adults, and includes such key nutrients as Vitamins A, C, D and E, amongst others. Serving size is two minty chewables daily which can be taken with or without food or water. When it comes to any consumer health product, consumers should always read and follow the directions on the product label, including the recommended daily servings.

Available at major retailers nationwide and online, Centrum® VitaMints® is sold in 60- and 120-count bottles. Visit www.CentrumVitaMints.com for more information.

It is important to note, dietary supplements are not intended to diagnose, treat, cure or prevent any disease but rather help consumers fill daily dietary gaps.

About Centrum®

With over 35 years of nutritional science expertise, Centrum® multivitamins remain the multivitamin chosen for multiple landmark studies on long-term health benefits and continue to be the most-clinically studied, most-preferred and most-doctor and pharmacist recommended multivitamin brand in America. Centrum® is a complete multivitamin that delivers a combination of essential vitamins and minerals that help support overall health and well-being. Centrum® multivitamins support multiple health benefits such as energy, immunity, heart health, bone health, eye and skin health.
