

Pfizer Hosts Annual Meeting of Shareholders

Thursday, April 28, 2016 - 08:00am

Declares 30-Cent Second-Quarter 2016 Dividend

The board of directors of Pfizer Inc. today declared a 30-cent second-quarter 2016 dividend on the company's common stock, payable June 1, 2016, to shareholders of record at the close of business on May 13, 2016. The second-quarter 2016 cash dividend will be the 310th consecutive quarterly dividend paid by Pfizer.

"In 2015, we returned nearly \$13.1 billion to shareholders through dividends and share repurchases," said Ian Read, chairman and chief executive officer. "In 2016, we continue to enhance shareholder value through our dividend increase announced in December 2015 and our accelerated share repurchase program executed in March 2016. In addition, we remain focused on strengthening our innovative and established businesses, and advancing our commercial and late-stage pipeline, while maintaining the financial flexibility to pursue attractive business development and other shareholder friendly capital allocation opportunities."

Preliminary results from the Annual Meeting of Shareholders held today indicate that the company's 11 director nominees were re-elected to one-year terms and that shareholders ratified the selection of KPMG LLP as Pfizer's independent registered public accounting firm for the 2016 fiscal year. In addition, shareholders voted in support of the board-sponsored proposal to approve, on an advisory basis, the compensation of the company's named executive officers.

In other voting, four shareholder proposals were not approved by the shareholders.

The final results are subject to verification by the independent election inspectors. The final results will be reported on a Form 8-K to be filed by Pfizer with the Securities and Exchange Commission in the next few days.

Pfizer Inc.: Working together for a healthier world®

At Pfizer, we apply science and our global resources to bring therapies to people that extend and significantly improve their lives. We strive to set the standard for quality, safety and value in the discovery, development and manufacture of health care products. Our global portfolio includes medicines and vaccines as well as many of the world's best-known consumer health care products. Every day, Pfizer colleagues work across developed and emerging markets to advance wellness, prevention, treatments and cures that challenge the most feared diseases of our time. Consistent with our responsibility as one of the world's premier innovative biopharmaceutical companies, we collaborate with health care providers, governments and local communities to support and expand access to reliable, affordable health care around the world. For more than 150 years, Pfizer has worked to make a difference for all who rely on us. For more information, please visit us at www.pfizer.com.
