

Pfizer Statement on Vincristine Sulfate Injection, USP Supply in the United States

Friday, October 18, 2019 - 02:33pm

NEW YORK, N.Y., October 18, 2019 – Pfizer Inc. (NYSE:PFE) announced today that “ Pfizer is now the only supplier of vincristine and we are committed to providing this important medicine to patients. We have scaled up production to fully meet the need for vincristine over the long term. We have also expedited additional shipments of vincristine, which are now in transit to healthcare providers so they can treat patients.”

Furthermore, a letter to customers was posted on Pfizer’s Sterile Injectable website Pfizer’s Sterile Injectable website and the FDA Drug Shortage website.

Pfizer Inc.: Breakthroughs that change patients’ lives® At Pfizer, we apply science and our global resources to bring therapies to people that extend and significantly improve their lives. We strive to set the standard for quality, safety and value in the discovery, development and manufacture of health care products, including innovative medicines and vaccines. Every day, Pfizer colleagues work across developed and emerging markets to advance wellness, prevention, treatments and cures that challenge the most feared diseases of our time. Consistent with our responsibility as one of the world's premier innovative biopharmaceutical companies, we collaborate with health care providers, governments and local communities to support and expand access to reliable, affordable health care around the world. For more than 150 years, we have worked to make a difference for all who rely on us. We routinely post information that may be important to investors on our website at www.pfizer.com.
